EDUCATION

Bachelor of Computer Application

Techno India University

2016 - 2019

SKILLS

- React JS
- Node JS
- Typescript
- Python(Flask)
- Javascript
- Express JS
- Next JS
- Sequelize
- Sql Alchemy
- Vue JS
- Redux
- Material UI
- Cypress
- Jest

TOOLS

- VS Code
- GitHub / Bitbucket
- Postman
- SonarQube

LANGUAGE

- Bengali - Native
- English - Proficient
- Hindi - Proficient

HOBBIES

- Coin collecting
- Playing Badminton

PROFILE

Software Engineer with 4 years of experience in designing, developing, and maintaining scalable web applications. Strong expertise in translating complex business requirements into clean, efficient, and maintainable code.

WORK EXPERIENCE

Infojini Consulting Pvt Ltd

08/2024 - Present

Senior Software Engineer

- Full ownership of frontend development using **React**, **TypeScript**, and **JavaScript**.
- Served as technical lead for a 3-member junior development team, delivering code reviews and technical guidance that improved code quality.
- Backend development and API integration using **Node.js** and **Sequelize**.
- Implemented unit testing using **Jest** for backend services and **Cypress** for frontend applications.
- Ensured code quality and maintainability through **SonarQube** analysis and best coding practices.
- Successfully delivered multiple projects independently from **UI design** to **production deployment**.

KPi-Tech Services

04/2023 - 07/2024

Software Programmer

- Contributed to the design and development of scalable frontend solutions using **React**, **JavaScript**, and **TypeScript**, following best practices and coding standards.
- Built and integrated backend services using **Node.js**, **Sequelize**, and **Python**, supporting application logic and data processing.
- Implemented **REST API** integrations and handled end-to-end data flow between frontend and backend systems.
- Wrote unit tests and performed debugging to ensure application stability and performance.
- Collaborated closely with cross-functional teams to deliver features within defined timelines.

WebMobi(Mendios Technologies Bangalore Pvt Ltd)

03/2022 - 04/2023

Front end developer

- Built and maintained modern frontend applications using **React**, **Vue.js**, **JavaScript**, and **TypeScript**.
- Implemented state management using **Redux** and **React Query** to handle complex application and server state.
- Developed consistent and user-friendly interfaces using **Material UI (MUI)** in line with design specifications.
- Performed end-to-end testing using **Cypress** to ensure application functionality, stability, and quality.
- Integrated frontend applications with backend systems through **RESTful API integration**.
